**FOR RIDING**

INNOVATION AND SECURITY

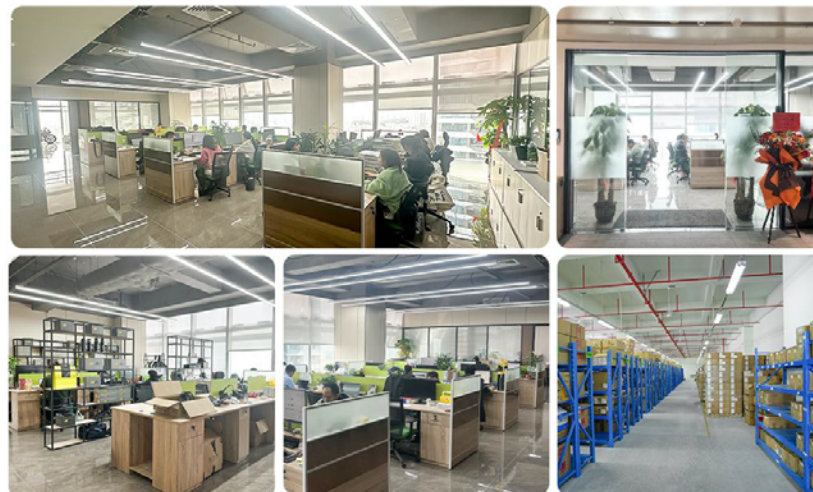

COKIMA TECHNOLOGIES

## ABOUT US

Cokima, Making Freedom Safer, is a company specializing in the development of peripheral products for cycling equipment. Taking Riding safety as our own responsibility, we continue to innovate and provide products with higher safety and convenience for cyclists.

"Make freedom Safer" is Cokima's brand philosophy. We believe that freedom can only be truly achieved when security is guaranteed. We not only provide products, but also a service, a care. Our team is always vigilant and constantly optimises our products and services to ensure that cyclists enjoy their freedom while keeping themselves safe.

"让自由更安全"是Cokima的品牌理念。我们坚信，只有当安全得到保障时，自由才能真正实现。我们不仅仅提供产品，更是一种服务，一种关怀。我们的团队始终保持警惕，不断优化我们的产品和服务，以确保骑行者在享受自由的同时，也能保障自身的安全。

Adaptive to Complex Scenarios/MOS

排插采用复合材料挤压 / 摇晃不容易坏  
The power strip is made of composite materials  
and is not easily damaged by extrusion or  
shaking.

# 国标 BMS | National Standard - compliant BMS

应用场景: 两轮电动自行车 串数: 13-16S 电流: 50A  
Application Scenarios: Two-Wheeled Electric Bicycles Cell Count: 13-16S Current: 50A

**高温湿寒  
5年稳定运行**  
high temperature, humidity and cold  
stable operation for 5 years

**电芯健康  
超低功耗**  
Cell Health  
Ultra-Low Power

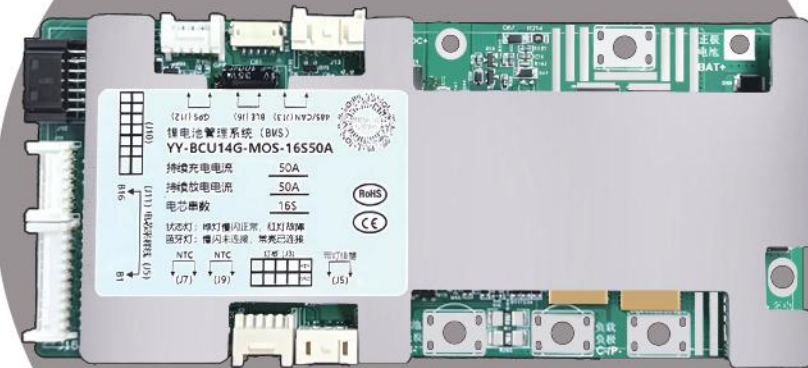

**新国标行业前沿技术  
全国产IC解决方案技术独立自主**  
Cutting-edge Technologies in the New  
National Standard Industry  
Technological Independence of All-Domestic  
IC Solutions

**装机近 100W 片**  
Nearly 1 million pieces have been installed

**后装出货量第一九号、小牛、极核**  
Ninebot ranks first in aftermarket shipment  
volume among Ninebot, Niu, and ZEEHO.

**海外市场  
美国/欧洲/印度/东南亿级企业/20+**  
Overseas Markets (Including the United States,  
Europe, India, Southeast Asia) - Billion-level  
Enterprises / Over 20 (Enterprises)

# 电摩BMS | Electric Motorcycle BMS

应用场景:两轮电动摩托车串数:17-24S电流:350A

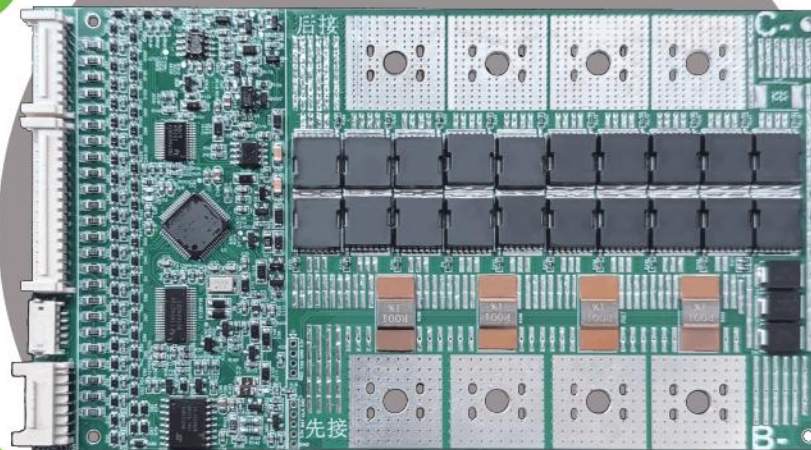

Application Scenario: Two-Wheeled Electric Motorcycles Cell Configuration: 17-24S Current: 350A

**适配型号多自适应功率级控制器, 不炸管**

Compatible with multiple models, adaptive power-level controller, and no MOS tube burnout

**动力强劲  
支持额定功率25KW输出**

Powerful performance  
Supports a rated power output of 25KW

**场覆盖率广速珂/九号/小牛电摩二级市场占有50%以上**

Wide market coverage: Market share of over 50% in the secondary market for Sur Ron/Ninebot/NIU electric motorcycles

**续航增程  
动能回收**

Range Extension  
Kinetic Energy Recovery

## 低速车串/并联BMS | Low-speed Vehicle Series/Parallel BMS

应用场景:低速三轮车, 四轮车, 观光车等串数:8s电流:50-100A

Application Scenarios: Low-speed Tricycles, Four-Wheel Vehicles, Sightseeing Vehicles, etc. Cell Configuration: 8S Current: 50-100A

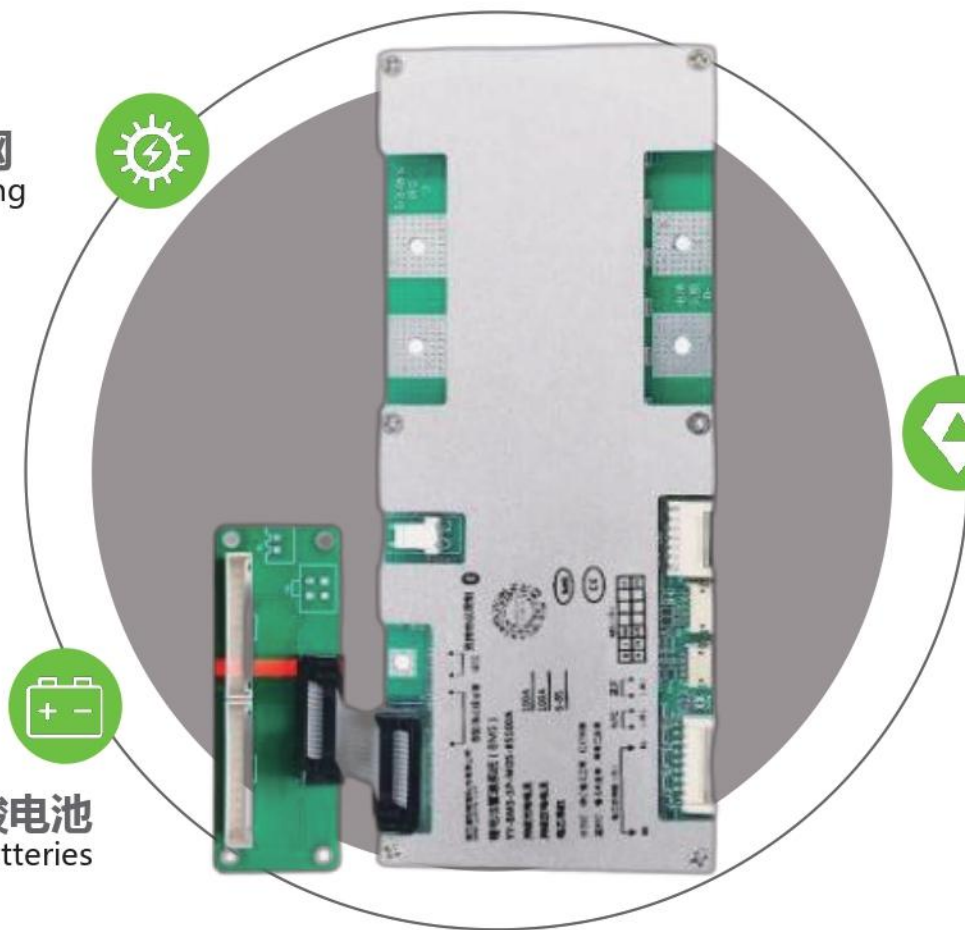

**电池组自主组网**  
Battery Pack Autonomous Networking

**自动充电限流**  
Automatic Charging Current Limiting

**无缝替代24V铅酸电池**  
Seamless replacement of 24V lead-acid batteries

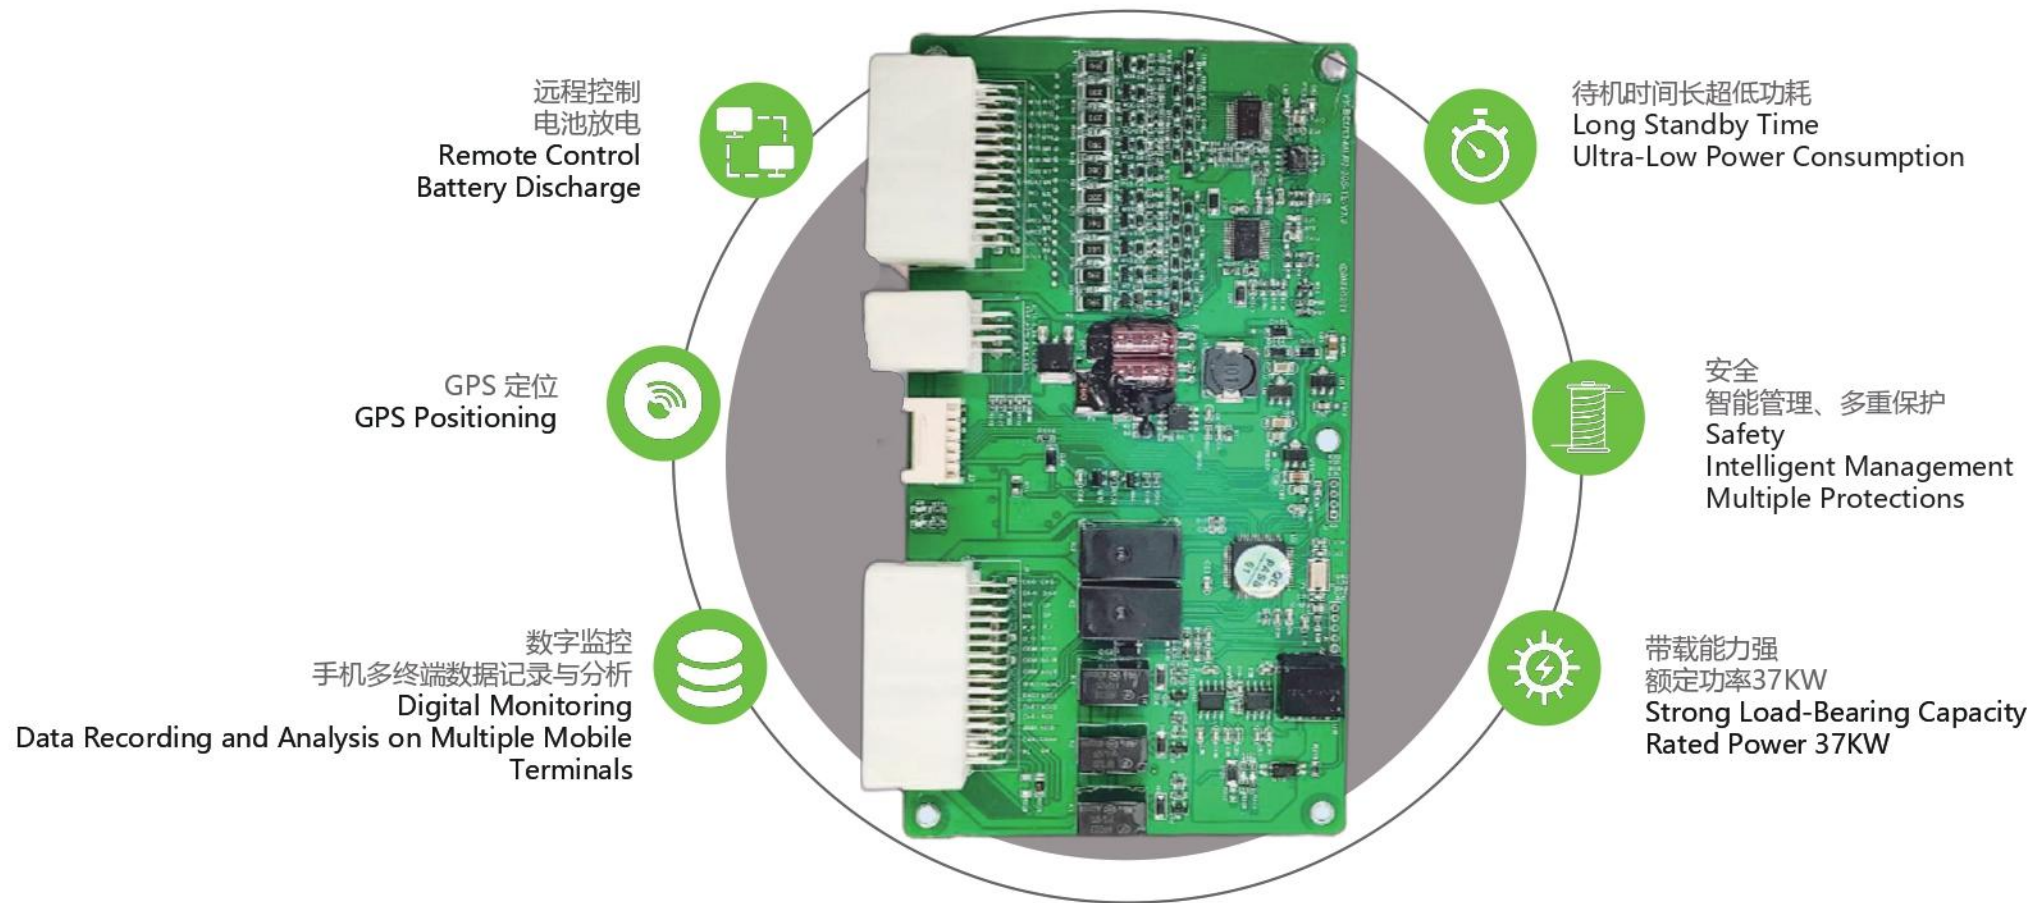

# 继电器 BMS | Relay BMS

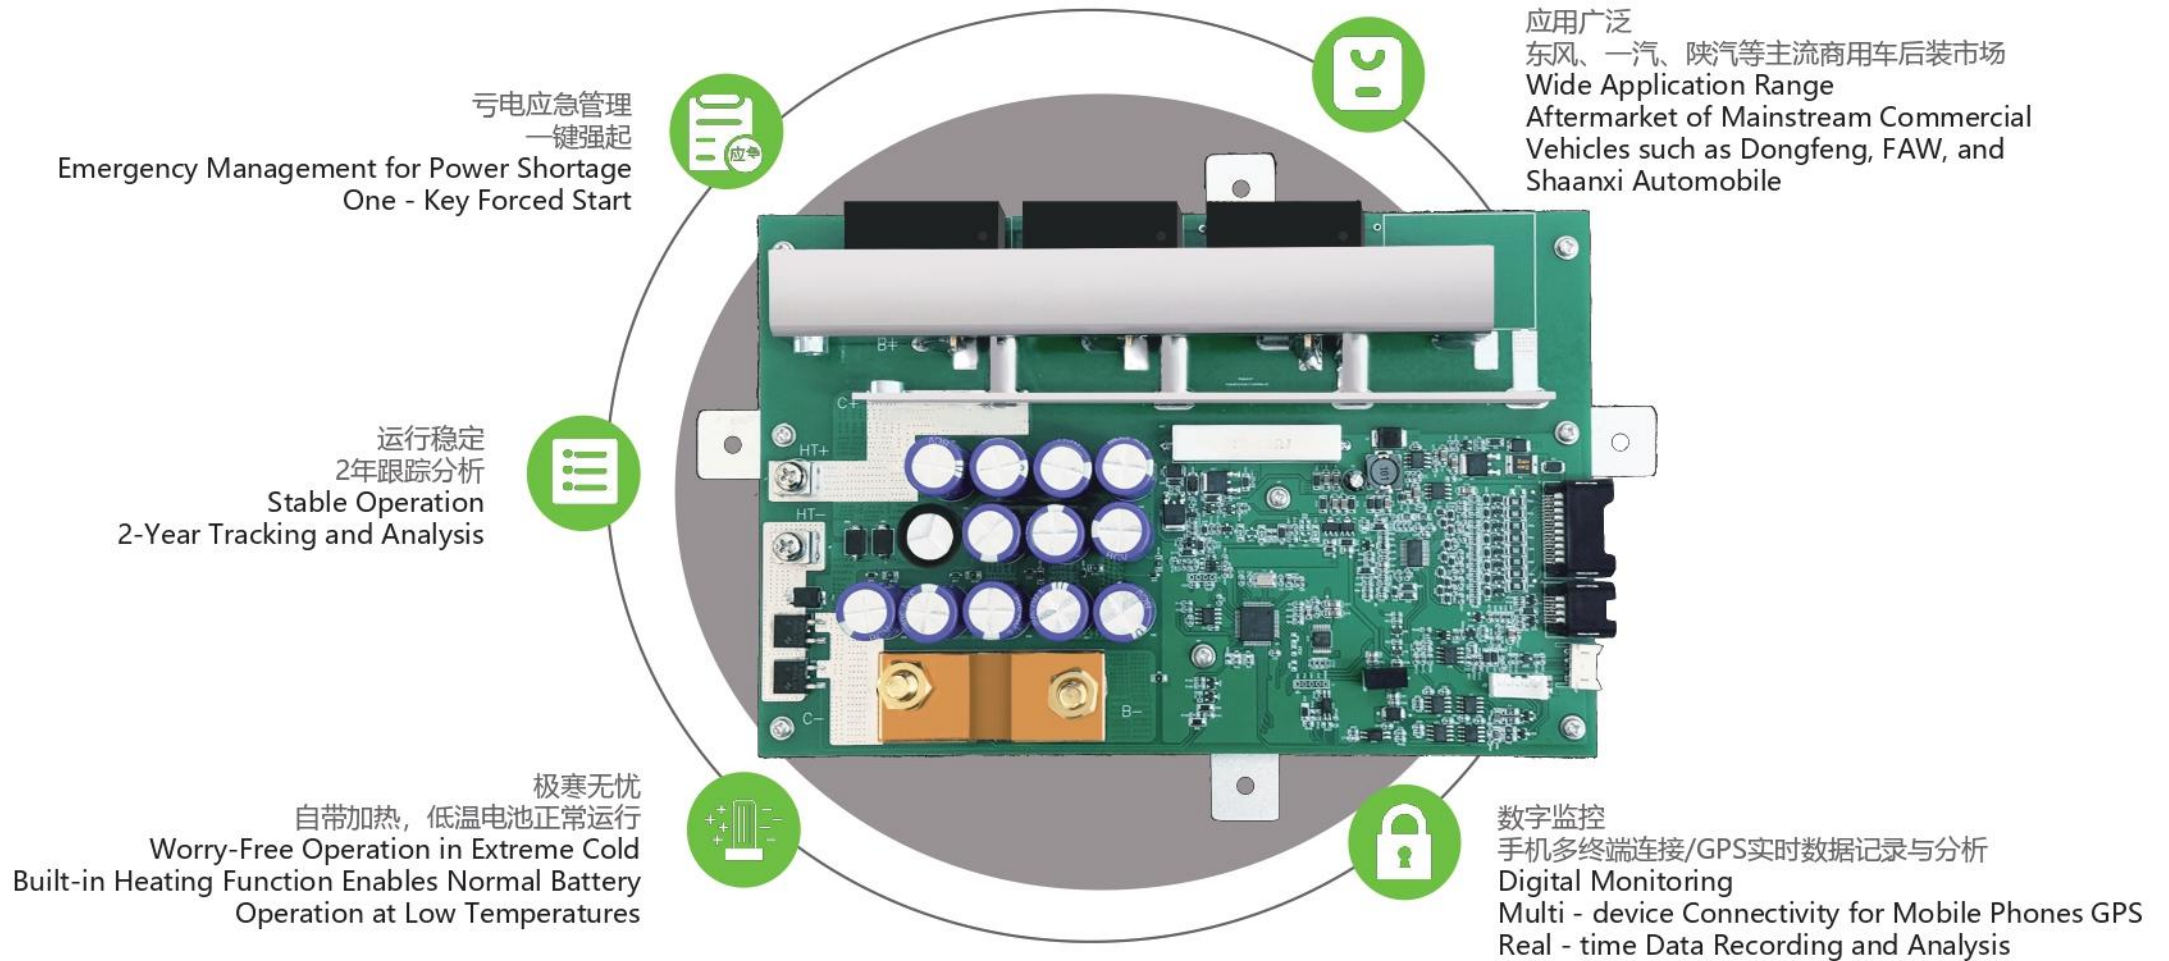

应用场景:叉车, 游船, 起重机等 串数:8-25S 电流:100A-1000A

Application Scenarios: Forklifts, Cruise Ships, Cranes, etc. Cell Configuration: 8-25S Current: 100A-1000A

# 驻车 BMS | Parking BMS

应用场景：货车，卡车串数：电流：8S 400A-1800A  
Application Scenarios: Trucks, Lorries Cell Configuration: 8S Current: 400A-1800A

# 房车 BMS | RV BMS

串数4S: 电流: 200A 应用场景: 房车  
Cell Configuration: 4S Current: 200A Application Scenario: RVs (Recreational Vehicles)

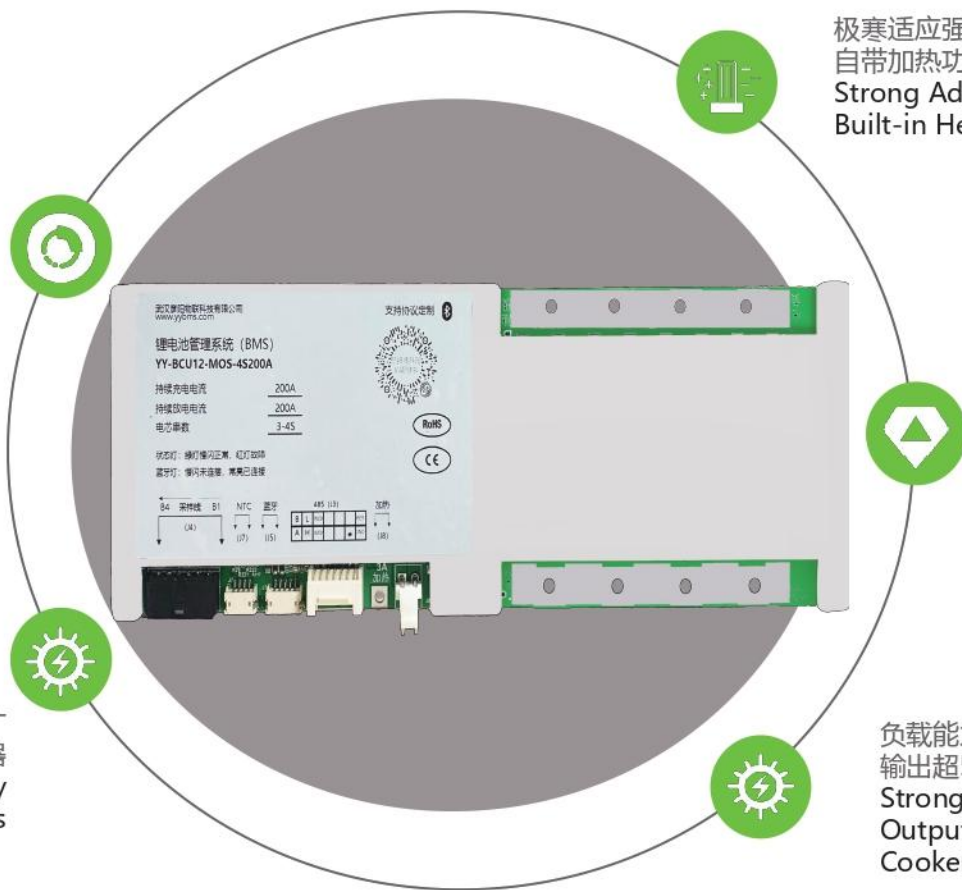

运行稳定  
市场出货超5年  
Stable Operation  
Over 5 Years of Market Shipment

极寒适应强  
自带加热功能  
Strong Adaptability to Extreme Cold  
Built-in Heating Function

安全  
智能管理、多重保护  
Safety  
Intelligent Management  
Multiple Protections

负载能力强  
输出超5KW (空调、热水器、电饭煲、电磁炉等)  
Strong Load Capacity  
Output Exceeds 5KW (for Air Conditioners, Water Heaters, Rice Cookers, Induction Cookers, etc.)

通用性广  
适配多种主流逆变器  
Wide Versatility / High Universality  
Compatible with Various Mainstream Inverters

# 启停 BMS | Start-Stop BMS

应用场景：车载启停锂电池    串数：4S    电流：100A  
Application Scenario: Vehicle-mounted Start-Stop Lithium Battery    Cell Configuration: 4S    Current: 100A

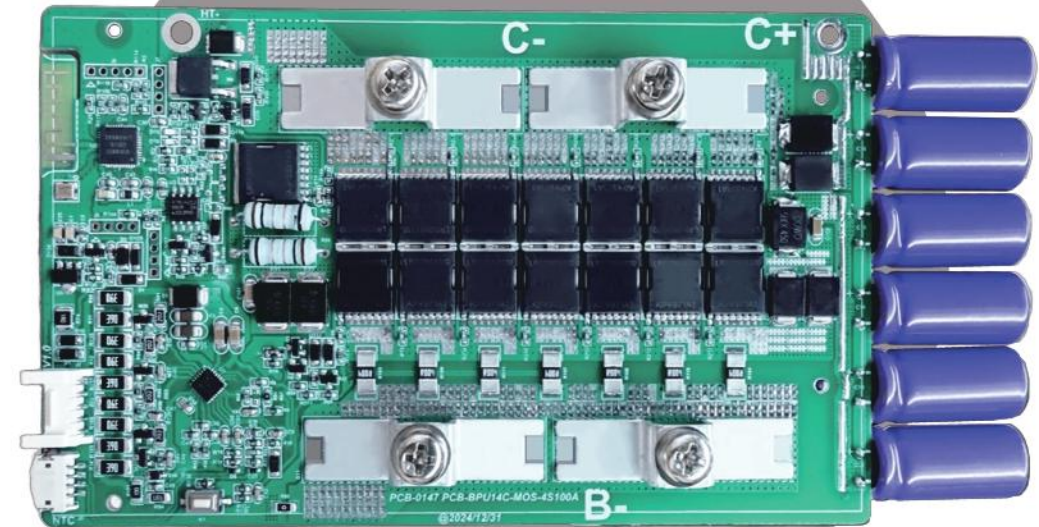

安全  
充电、放电保护  
Safety  
Charging and Discharging Protection

维护方便  
手机连接查看数据  
Easy Maintenance  
View Data via Mobile Phone Connection

车载系统防报错  
吸能功能(仪表、ABS、转向等报错)直接翻译  
Error Prevention for Vehicle-mounted Systems  
Energy Absorption Function (for errors of instrument, ABS, steering, etc.)

Application Scenarios: e-bike / Street Light / UPS Power Supply / Power Tools / Outdoor Power Supply / Floor Cleaning Robot  
Cell Configuration: 4-20S    Current: 20-100A

出货量 20 万 +  
Shipment volume: over 200,000  
units

高性价比  
cost-effective

数据查看

## CK3-MAX For BMW Motorrad

## CK3-MAX Universal

## Direct OEM-fit installation

### 原车底座匹配安装

Designed exclusively for BMW motorcycles, this intelligent head unit features an OEM-compatible base and a non-destructive, tool-free quick-release mechanism. You'll enjoy a seamless smart-riding experience while perfectly preserving your motorcycle's original factory finish.

如果你是宝马摩托车的用户，你可以选择这款专门为宝马车设计的智能车机，“原车底座适配+无损升级”的快拆设计，既满足了您对智能驾驶的追求，又完美守护了宝马车的原厂品质。

## Universal Quick-Release Base

### 通用快拆底座设计

For motorcycles without a factory bracket, the Cokima Universal Quick-Release Base offers the same effortless install and removal. Precision-engineered for rock-solid stability, it keeps your head unit secure—no rattling or loosening—ride after ride.

如果你的车辆没有原车底座，你可以选择Cokima通用快拆底座。我们设计初衷是为了让用户能够快速、方便地安装和拆卸智能车机设备，同时为车机提供稳定的支撑，确保在车辆行驶过程中车机不会晃动或掉落，保证使用安全性和稳定性。
